the use of the pocket 5 is facilitated.

(57) Abstract:

COPYRIGHT: (C)2000,JPO

PROBLEM TO BE SOLVED: To further facilitate the use of a pocket provided mainly for storage of bottles or the like in a door inner plate of a refrigerator.

SOLUTION: The top surface and the back surface are opened, at right and left of the inside of a pocket 5 to be fixed on a door inner plate 4, two partition plates 6a and 6b for partitioning the inside of the pocket 5 are disposed so as to shift them back and forth, a crank-shaped movable partition plate 7 is provided with a holding part fit for to these two partition plates 6a and 6b, and the movable partition plate 7 is freely slidably set on the two partition plates 6a and 6b in the pocket 5. As a result, large and small bottles are stored mixedly either in front or in rear in the pocket 5, and bottles highly frequently put into and out of the pocket 5 are stored in the front thereof by arranging large and small bottles in order, so that
